

FREE FROM FOG

anti-fog lens cloths

from  Grafton Optical

Clear lenses
for 12+ hours

200+ uses per
cloth

“

An absolute game changer for anyone who wears glasses.

As someone who works in hospital all day with a mask I can honestly say this is a game changer. In my experience wearing glasses with a mask leads to numerous adjustments every hour to avoid them misting. With a thorough wipe in the morning, this cloth has completely prevented this. I have forgotten to use the cloth on occasion and you remember how distracting the fogged glasses are.

I would recommend these to anyone in this strange time not only to prevent the annoyance but also to prevent the repeated adjustments of the mask which could pose a risk of greater exposure.

This is a game changer for anyone who wears glasses! I wiped my lenses in the morning and photographed a wedding all day with zero, and I mean ZERO fogging on my glasses. Such an amazing product. Glasses wearers... YOU NEED THIS CLOTH!

”

FREE FROM FOG

the anti fog lens cloth designed by optical professionals

No damaging solvents . . .

Keeps lenses clear for at least 12 hours . . .

Each cloth gives clear, fog free lenses for up to 200 uses . . .

Can be used on all types of optical lenses including cameras . . .
and those with special coatings and treatments

How to use

- 1 Ensure glasses are pre cleaned
- 2 Remove FREE FROM FOG cloth from the sealed packet and rub each lens front and back for a minimum of 60 seconds, ensure you get all the edges.
- 3 Enjoy fog free vision for at least 12 hours!
- 4 Reseal FREE FROM FOG cloth back into the sealed packet

The FREE FROM FOG cloth will last anywhere between 6-8 weeks depending on your use. The cloth is dry to ensure there is no residue left on your glasses. Do not wash or rinse the FREE FROM FOG cloth, or use other products with it.

This product is a game changer. I would highly recommend.

One of the best things I've bought this year - a complete lifesaver!

Bought two of these cloths. Highly recommend. Does what it says on the tin!

These cloths are a lifesaver. My specs don't fog up once my mask is on. I was always frightened of missing a step down the stairs at the train station, I don't have an issue anymore. I can even open the oven door and take out the food without waiting for my specs clear.

Thank you.

WOW! It actually works!

If you are a spectacle wearer and find yourself pulling your glasses and mask on and off 100 times a day due to fogging lenses then YOU NEED THIS CLOTH!
